

REMARKS

This application has been carefully reviewed in light of the Office Action dated May 8, 2009. In response to the Office Action's requirement for restriction, Applicants elect Group I, Claims 1-9 and 19-20, drawn to a method for determining mechanical elastic parameters of an examination object without traverse.

In view of the foregoing, it is respectfully submitted that the currently-pending claims, as herein amended, clearly define statutory subject matter. Accordingly, allowance of the currently-pending claims is now respectfully submitted to be justified, and favorable consideration is earnestly solicited.

Respectfully submitted,
